Teacher and Pupil Comments about .b

“Learning mindfulness techniques and how to teach them has helped me personally and professionally. As a teacher I am more aware of how I can influence the 'weather' in my classroom environment. Teaching students has been really rewarding when I hear students saying how practicing mindfulness is helping them..”

“It has already had an impact on the students and this can be seen by calmer more focused students. Students have said that the learnings from this course have also stopped some of them losing their temper or walking out of exams.”

“Students have reported doing a .b before 'reacting to a teacher, thereby preventing making a situation worse for themselves, in other words responding rather than reacting. Also students have reporting doing the practices before important sports performances.”

“Several pupils have said that they are better at responding to conflict and being kind to themselves. Some have been more aware of their moods. They often say that they have done a .b and it has helped them calm down. Sometimes they advise friends to do a .b!”

“The best thing about .b was everyone getting together and talking about our feelings. This made me feel less alone.”

“I get frequent anxiety attacks, but they're getting bearable thanks to the .b course.”

“If I get anxious, when a worry just comes, I do a .b standing up, I just breathe and feel my feet I can do it anywhere. This stops the worry being so sharp and jagged.”

“The best thing was the Beditation. That exercise was actually useful as it helped me sleep at night. It is something I'll take away from the entire course.”

“It really helps with when I'm nervous about exams and I can just do a mindfulness activity and it makes me feel calmer.”

“It was needed especially during certain periods which can cause stress or anxiety. It really helped me concentrate and remain calm during exam periods”
